BEFORE

Presentation's title overpowers top

Dark background obscures text

Lists aren't parallel

Two levels use same bullet symbol

Dense slide suffers from Times font, tiny size, muddy boldface, and busy title case

0I-8D AND SUBS ALTERNATE I-LOAD LEVEL 8 TEST REQUIREMENTS

- **Purposes For Level 8 Testing:**
  - **Verification of Flight Software Integrity In A GPC Environment**
  - **Assess Reconfigured Flight Software Performance**
  - **Alternate TAL Testing Done At Request Of Community Analysts**
- **Level 8 Verification:**
  - **Provides Visibility Into Internal Code And Performance Per Compute Cycle**
  - **Confidence Provided That The Flight Software Is Functioning Properly Prior To Release**
  - **Provides Comparison Signature Data**

AFTER

Two readable slides replace one dense eye test

Bullets are parallel (and start with verbs, for vigor)

Slide's title is at top, presentation's title at bottom

Why Level 8 Testing

- Verify flight software integrity in a GPC environment
- Assess reconfigured flight software performance
- Do Alternate TAL testing at request of community analysts

Level 8 Test Requirements for
0I-8D and Subs Alternate I-Load

Ideas stand out because layout is quiet, uncluttered

Double check: is technical jargon clear to intended audience?

Needless noun string broken up

Why Level 8 Verification

- Provides visibility into internal code and performance per compute cycle
- Provides confidence that the flight software is functioning properly before release
- Provides comparison signature data

Level 8 Test Requirements for
0I-8D and Subs Alternate I-Load
